

Wave-Core™

Recycling Bins & Waste Bins

Liberty Plastics recycling and waste bins are made of Wave-Core™ corrugated plastic. Wave-Core is lightweight, made entirely of HDPE, and is impact, moisture and temperature resistant. These containers are recyclable once past their life cycle. Each container ships flat and is fast and easy to assemble. Containers can be cleaned and collapsed for easy storage so you can reuse them again and again.

The HDPE Difference

DURABLE

- UV resistant
- Withstands extreme temperatures-heat & cold
- Corrosion resistant-holds up to solvents, alcohols, acids, & alkalies
- High tensile and tear strength
- Strong impact performance

FLEXIBLE

- Bends, folds, and rolls without cracking or breaking
- Folds with no "craze" or "white out"

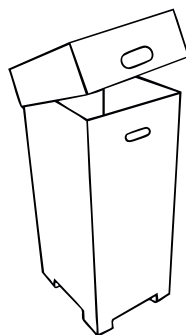

RECYCLABLE & REUSABLE

- Eliminates the need for disposable packaging

Custom Capabilities

- Color & Logo Customization
- One, two, or three color screen print
- Full-color digital printing
- Stickers or decals
- Custom top designs
- Custom Labels
- Die-Cutting
- Sonic Welding
- Fasteners & Wire Reinforcement
- Printing & Embossing
- Non-Skid Coating
- Prototype Design & Fabrication
- A variety of Additives & Formulations

Specifications & Details

Specifications

Part #	Product Type	Dimensions	Plastic Liner Bag Capacity	Container Color	Print Color	Packaging
21559	Plastic Bags	20" x 16" x 38"	44 Gallon	Natural	Green	3 pack (ships flat)
61040	Bottles & Cans	20" x 16" x 38"	44 Gallon	Natural	Green	3 pack (ships flat)
11915	Recyclables Only	20" x 16" x 38"	44 Gallon	Natural	Green	3 pack (ships flat)
86844	Unprinted	20" x 16" x 38"	44 Gallon	Natural	N/A	3 pack (ships flat)
